**Index to Bulletin - Volume 4**

*Notes on the Index and how to use it*

This Index covers Volume 4 of the Group Bulletin which comprises numbers 92 to 103 inclusive issued between March 1990 and December 1992

The method and format follows that used for the volumes of index previously published. The items quote the page numbers on which they appear and pages covered by each Bulletin are shown in the List of Issues below. If an item appears more than once in a different context on the same page, the number of times it appears is shown in brackets alongside the page number, e.g. 76(2). A few larger subjects such as London General Omnibus Company are shown as headings in their alphabetical place with specific matters listed beneath.

London bus routes are dealt with within the three distinctive periods used in previous index volumes, these being:

- (1) from 1908 to November 1924
- (2) from December 1924 to September 1934 during which period all suffix letters are ignored.
- (3) from October 1934 to the present time.

In an index of this nature it is possible there are errors and omissions although every effort has been made to keep these to a minimum. The Convenors would be grateful if these, together with any suggestions for the improvement of future index volumes could be brought to their attention.
