

London Historical Research Group - The Omnibus Society

INDEX TO BULLETIN VOLUMES 5 AND 6

This index covers Volumes 5 and 6 of the Group Bulletin which comprises numbers 104 to 127 issued between March 1993 and December 1998. There are some differences in compilation between this and earlier indexes published. Because two volumes are covered the pagination is shown as 5/...for volume 5 and 6/... for volume 6. The practice of including multiple references on one page has been discontinued. London bus routes are no longer shown under three different periods but one sequence is given under the heading 'Motor bus routes' and all references to a route number are included here regardless of period of operation.

In an index of this nature it is possible there are errors and omissions although every effort has been taken to keep these to a minimum but it is hoped it will prove a useful aid to locating information within the Bulletins. Back numbers of these issues are still available at 30p each from the Distribution Officer, 57 Bluebridge Road, Brookmans Park, Hatfield, AL9 7UW
